

QUALITY & ENVIRONMENTAL POLICY STATEMENT

Huntleigh Healthcare Ltd is a Quality & Environmentally conscious and responsible business.

As a business, we design, manufacture, service and distribute devices and their associated accessories (sterile and non-sterile) for obstetric and patient monitoring, vascular assessment and treatment.

We are committed to providing Quality devices that meet Customer, Quality and Regulatory requirements and in parallel recognise our responsibilities to the community for those aspects of our business that impact the environment.

To carry out this commitment, it is our policy to;

- Comply with regional, national and international regulatory/legislative requirements, including any other compliance obligation for product and management systems applicable to the nature of the business and any other requirements deemed appropriate.
- Continually improve our processes to enhance the quality of our devices and our environmental performance.
- Protect the environment including the prevention of pollution that has an effect on the climate.
- Maintain an effective Quality & Environmental Management System.

This is achieved by;

- Compliance to;
 - ISO14001:2015, ISO9001:2015, ISO13485:2016, MDSAP.
- A rigorous internal audit programme.
- Defining objectives with regards to quality and the environment that are reviewed periodically.
- An established corrective and preventive action system.
- Periodically reviewing the effectiveness of the Quality & Environmental management system.

This policy is posted internally and available to all persons working for, or on behalf of, the company, government agencies, certified bodies, legal manufacturer, customers, suppliers and the public, upon request.
